My Portfolio: [Rohit Portfolio](#)

Education

Institute of Aeronautical Engineering, Hyderabad

B.Tech in Computer Science & Engineering (AI&ML)

2021-2025

8.03/10 CGPA

Trividya Junior College, Hyderabad

Board of Intermediate Education, Telangana (T.S.B.I.E)

2019-2021

Percentage: 79.8%

Narayana High School, Hyderabad

Secondary School Certificate (S.S.C)

2019

CGPA: 9.3

Experience

Datanitiv, Hyderabad, Telangana

Data Scientist / Machine Learning Engineer

July 2025 - Present

On-site

- Optimized ML models (Neural Prophet, DeepAR) for Demand Forecasting through hyperparameter tuning — significantly reduced training time and improved accuracy; developed a LightGBM model maintaining 90%+ accuracy.
- Led end-to-end development of the AHT (Average Handle Time) forecasting project — from research and model selection to microservices integration and full deployment lifecycle.
- Designed and developed a Prophet + XGBoost hybrid forecasting model for the Shrinkage module, improving accuracy over the legacy SARIMAX approach and optimizing processing performance.
- Expanded into Full Stack development — built REST APIs and Stored Procedures in .NET and MSSQL with no prior experience, including Authorization & Authentication implementation.
- Self-learned Angular and delivered complete UI screens for the Action Centre — integrated APIs, built new modules, and developed features with a user-first approach.
- Collaborated across UI, API, DB, QA, and Product teams; identified and resolved defects with improved logging and error handling across multiple layers of the application.
- Mentored and guided teammates across ML, Full Stack, and UI domains — contributing to team growth and faster delivery.

Echo - Day Jobs, Hyderabad, Telangana

User Interface / User Experience Designer

May 2023 - July 2023

Remote

- Designed a Figma prototype for a job search mobile app used by 100+ users, enhancing discoverability of local jobs through map integration and earnings tracking.
- Included features such as job postings, a map for nearby jobs, and an earnings account.
- Collaborated cross-functionally in a fast-paced startup to enhance communication and teamwork skills.

Advantage Community, Hyderabad, Telangana

User Interface / User Experience Designer

Jan 2023 - Nov 2023

Remote

- Improved UI workflow for a design startup, resulting in clearer navigation paths and reduced task time.
- Collaborated in a start-up environment, gaining insights into the start-up ecosystem.
- Utilized Figma and other design resources for UI/UX development.

Projects

Early Detection of Alzheimer's Disease and Brain Tumour using EfficientNetB3

- Developed deep learning model using EfficientNetB3 on brain MRI data, achieving 95.3% test accuracy for early Alzheimer's detection

Widespace Interiors

- Designed and built a responsive web UI for an interior design client, streamlining layout and improving navigation clarity.

TEDx IARE, Hyderabad

- Developed User Interface Design using Figma for prestigious college event.
- Built the front end of the website using HTML and CSS.
- Deployed the Web Application on AWS using EC2, S3, ELB etc.

JUSPAY Learnathon

- Worked with a prebuilt application and deployed and monitored a containerized microservice application using Docker, Kubernetes, Prometheus, and Grafana; implemented sidecar proxy routing with Envoy.

Skills

- **Programming Languages & Databases :** Python, C# (.NET), Javascript, Java, MySQL, MSSQL
- **Frameworks:** Angular, Microservices, Prompt Engineering
- **Cloud and DevOps:** AWS, Azure Service Bus, Azure, Docker
- **Soft Skills:** Communication, Leadership, Time Management, Critical Thinking and Analytics
- **Operating System and Other Infrastructure:** Computer Networking Fundamentals, Figma, Canva, Linux, Windows, GitHub Commands

Achievements

- **Certified AWS Cloud Practitioner**
- Organized TEDx IARE event attended by 800+ students.
- Organized Major League Hacking Frost Hacks Hackathon attended by 500+ students.
